

"STOCKHOLM" BEDROOM COLLECTION

The Stockholm bedroom is an original design from Jeffrey Smith for Creative Elegance. Minimalist in style but generous in proportion and texture, the Stockholm was inspired by the work of Frank Lloyd Wright and the simplicity of an uncluttered environment. With unique hardware, extra attention to grain direction and detail and the time tested craftsmanship of Creative Elegance, Stockholm is a statement of quality and prestige. This collection is fashioned from Rift Cut Oak and available in a plethora of finish combinations.

In addition to the options and features described you now have a choice of two types of track mechanisms for opening our beautifully finished Maple drawers. The standard track is a full extension metal ball bearing side mounted system that will give years of quality function and service. As an alternative, we are offering a fully concealed under-mount track system that is both super smooth and super quiet. It has a soft, self closing action that also adds to its appeal as a luxury feature **(use items with "P" for Premium tracks)**.

Finishes: Available in 17 finishes on Rift Cut Oak. Contrasting finish possible on drawer box and fronts:
Natural, Limed, Champagne, Caramel, Brandy, Cognac, Mahogany Stain, Dark Walnut Stain, Chocolate, Stormy Gray, Slate, Silver, Black, White, Rose Quartz, Dark Bronze and Oro.

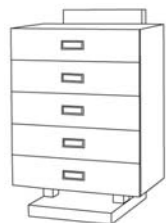

***Second prices listed are for Exotic wood option on drawer box and fronts:** Ebony and Zebra grained veneer
